Forecast for Tuesday 07 Jun 2022

Weather: A dry and bright start to the day, with mist and areas of low cloud in the north of the Park, these soon lifting and breaking. A better chance of sunshine in the south however some scattered showers will soon develop around lunchtime. These will be mostly light though. A band of showery rain will then arrive from the west or southwest during the evening, heavy at times.

Chance of cloud-free hill tops above 600m: 20% in the north early morning but more like 40-50% in the south. Increasing to 80-90% by midday.

Low cloud and visibility: Visibility poor in places early morning, with areas of low cloud around 250-300m, mostly in the north of the Park, lifting and breaking by mid-morning. Generally good to very good visibility all aroundd but locally moderate in any showers.

Forecast for Wednesday 08 Jun 2022

Weather: Showery rain through the early hours with some heavy bursts possible. This clearing during the overnight period leaving a largely dry start to the morning. Sunny spells through Wednesday but scattered heavy showers breaking out with a low risk of thunder and hail. Breezy with gusty winds in and around the showers

Maximum wind: Westerly 20-25mph gusting 35-40mph at times.

Chance of cloud-free hill tops 600m: 80%.

Low cloud and visibility: Periods of cloud above around 700m during the morning. Otherwise, occasional patches above 950m with brief patches down to 850m during the showers. Generally excellent visibilities with distant hills clear to see but briefly poor in heavy showers and locally very poor in cloud.

Temperature: **Valleys:** Plus 8 Celsius rising to plus 19 Celsius.
At 600m: Plus 11 Celsius.
Freezing level: Above the summits.
